EDUCATION

Kenzie Academy from Southern New Hampshire University
Indianapolis, IN

Associate Front-End Web Development Certificate

February 2021 - August 2021

Intensive, project-based 6 month certificate program that trained students on how to convert data to a graphical interface using HTML, CSS, and JavaScript

PROJECTS

Trivia Quiz Capstone | Team Member | Kenzie Academy

August 2021

- Created a trivia quiz that executed fetches to pull questions randomly from multiple APIs
- Used JavaScript to develop a system in which the user would be given a question and would receive points for answering the question correctly
- Became proficient in using fetches, variables, conditionals, DOM elements, strings, arrays, and manipulation of objects
- Created an input form that accepted a user's input
- Implemented a special feature that made the game and score reset automatically if the user replied incorrectly
- Collaborated with 3 students in an agile work environment to **successfully complete the project 5 days ahead of schedule**

Choose Your Own Adventure Game | Team Member | Kenzie Academy

May 2021

- Built a game where the user was given prompts and choices that allowed them to control how they wanted their story to go
- Used Javascript to execute functions that asked the user which page they wanted to go to, then gave them a short paragraph to read
- Developed a function for the final completed story to appear in the browser as a conclusion to their adventure
- Worked in a group with 6 other peers to assist each other with debugging and problem-solving

SKILLS

- JavaScript
- HTML
- CSS
- GitHub
- Terminal
- Photoshop
- Troubleshooting
- Debugging Code
- Attention to Detail
- Problem-Solving
- Researching
- Communication
- Teamwork
- Teaching
- Photographer

[Portfolio](#) | Solo Project |

October 2021

- Used HTML, CSS, and JavaScript to create a visual representation of my work in the form of an online portfolio
- Designed the entire layout by adjusting the font, coloring, and placement of text

WORK EXPERIENCE

Amazon Fulfillment Center, Fort Worth, TX — *Learning Ambassador*

April 2019 - December 2021

- Provided training to 100+ new hires in small groups in the Amazon Fulfillment Engine Department, resulting in the majority of these new associates staying for at least a year which increased retention rate
- Ensured timely progress for package shipping by collecting incomplete customer orders and processing the items to ensure the orders are complete and undamaged before they are shipped
- Worked quickly to complete the order by scanning all correct items based on the quality company's rate to get shipments out on time.
- Paid attention to detail by sorting items into the right locations for the packer to pack customer orders.
- Sorted items one by one by detecting barcodes at a high pace and placing them in a tray.

JCPenney, Fort Worth, TX — *Photographer*

Oct 2018 - April 2019

- Captured photos that are fun and creative to exceed the customer's expectations
- Performed the sales process to achieve sales average expectations
- Talked with potential customers and call existing customers to schedule and confirm sessions
- Provided a wonderful customer experience

Amazon Fulfillment Center, Fort Worth, TX — *Stow*

April 2015 - April 2018

- Processed inventory correctly by ensuring the products are not damaged for it to appear on the listing website
- Converted shipments from the vendors into inventory to be available online
- Counted inventory by using the handheld barcode scanner to have a accurate count of the items available for the customers online
- Gathered products to fulfill customer orders by locating merchandise to meet picking tickets
- Integrated Sensor Suite unit houses all of the measurement devices required to secure that defective items are handled properly and removed from the inventory
